

A modern outdoor kitchen and patio area featuring dark grey vertical cladding. The structure includes a large stainless steel grill, a range hood, and a built-in oven. A pergola with dark slats covers the seating area, which is furnished with light blue armchairs and a coffee table. Large glass doors provide access to the interior. The patio is paved with light grey tiles, and a hot tub is visible in the background. The scene is set against a backdrop of trees and a cloudy sky.

CLADDING OPTIONS

INTRODUCTION

Choosing the right exterior finish is one of the most important parts of designing your building.

Our cladding range includes premium composite and enhanced wood-effect finishes, all selected for their longevity, low maintenance and beautiful aesthetic in any garden setting.

Every option we use is durable, fade-resistant, weatherproof and installed to our high-spec ventilation and moisture-management detail.

Choosing the right exterior finish is one of the most important parts of designing your building.

Our cladding range includes premium composite and enhanced wood-effect finishes, all selected for their longevity, low maintenance and beautiful aesthetic in any garden setting.

Every option we use is durable, fade-resistant, weatherproof and installed to our high-spec ventilation and moisture-management detail.

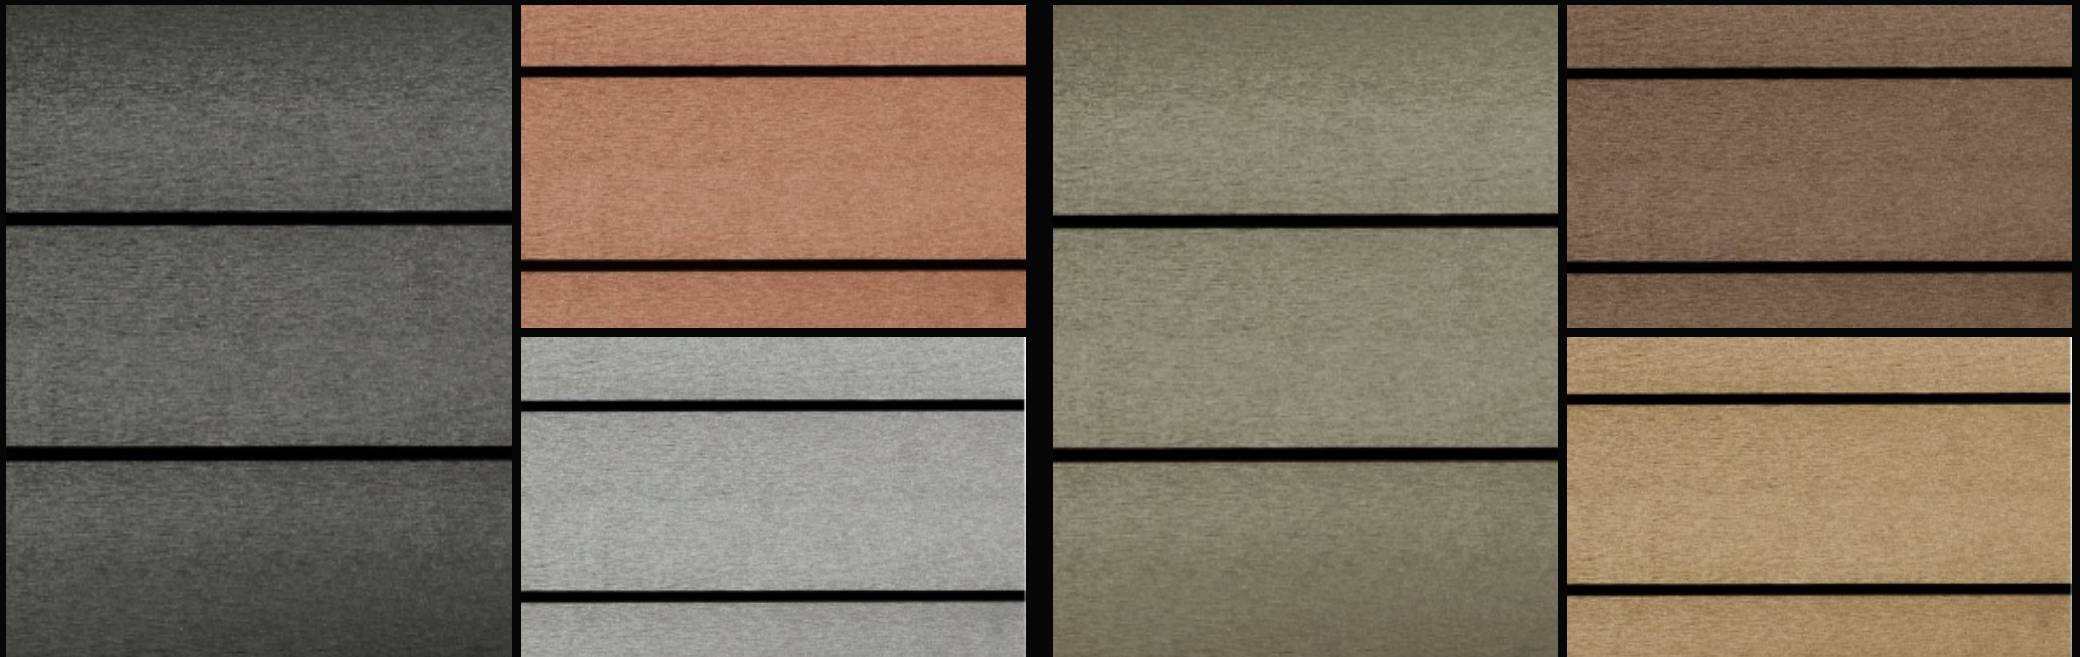

Gladco SMOOTH COMPOSITE

Our smooth composite cladding offers a crisp, contemporary finish designed for clients who prefer a clean, minimalist exterior. The sleek surface provides a modern architectural look while maintaining exceptional durability in all weather conditions.

Designed for flexible installation, they can be fitted vertically or horizontally and finished with matching composite composite corner trims to create a clean, professional look that lasts.

Available Colours: Charcoal, Redwood, Grey, Olive Green, Coffee, Teak

Gladco WOODGRAIN COMPOSITE

A realistic timber-effect board designed to offer the warmth and charm of natural wood without any of the ongoing maintenance.

Each board features subtle grain detailing and multi-tonal shading, creating a soft, natural aesthetic that pairs well with both neutral and bold exterior palettes. Extremely durable and weather-resistant, it's a great option for clients wanting a traditional look with modern performance.

Available Colours: Charcoal, Redwood, Grey, Olive Green, Ivory, Teak.

Gladco

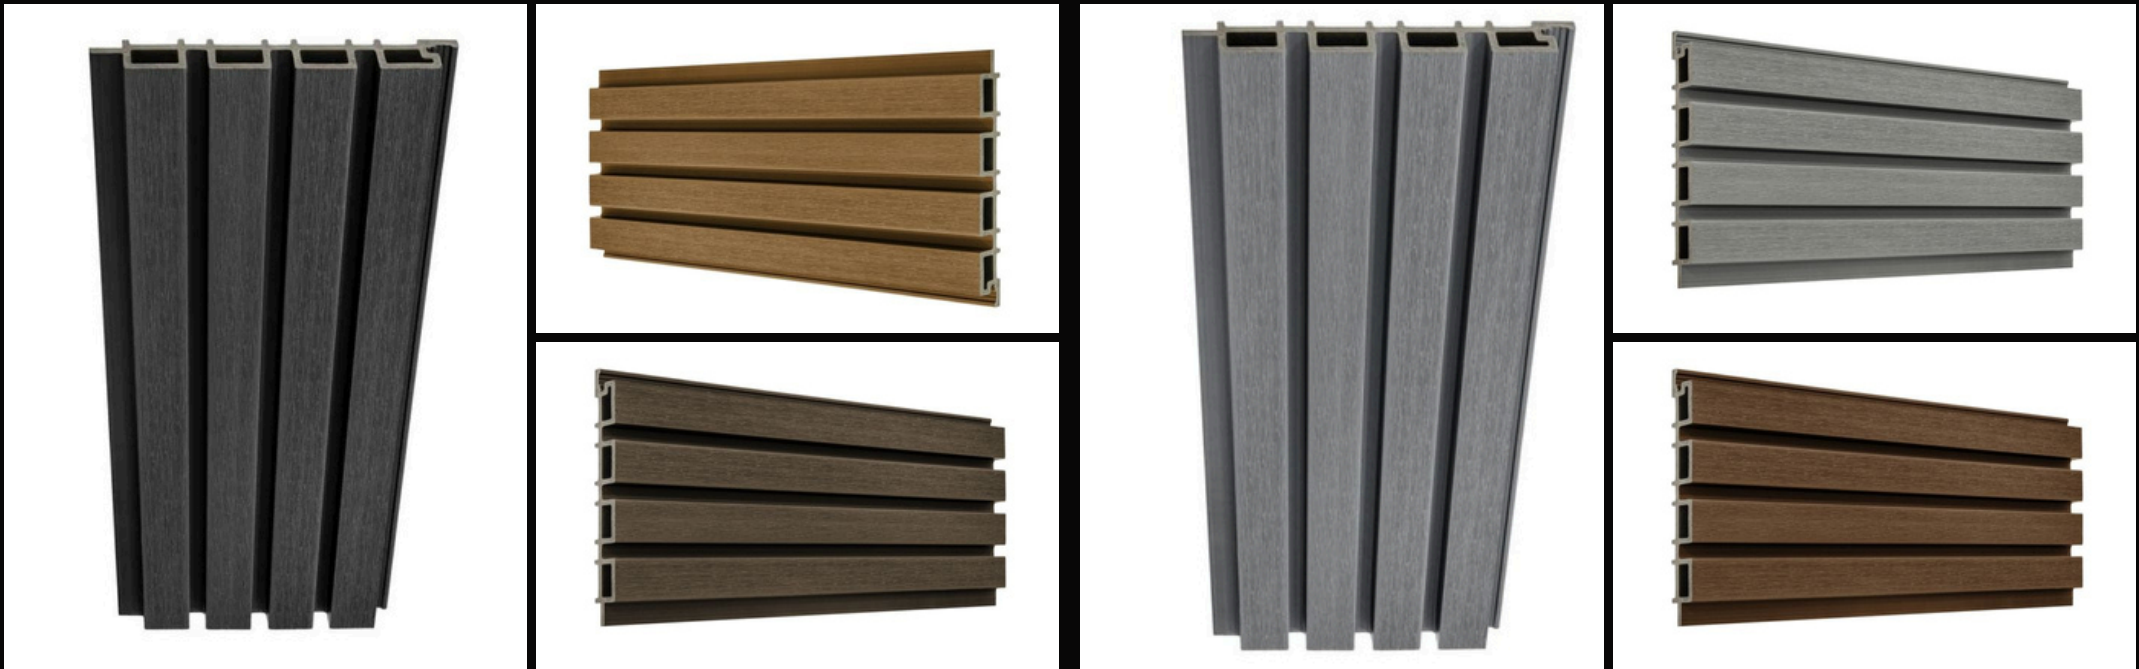

SLATTED COMPOSITE

A contemporary slatted profile that adds depth, texture and architectural interest to the building. The multi-slat design creates modern linear detail and works beautifully as either full-elevation cladding or a feature wall.

Manufactured from a durable, low-maintenance composite, these boards provide the look of modern timber slats without the upkeep or movement associated with natural wood.

Available Colours: Charcoal, Teak, Walnut, Stone Grey, Light Grey, Coffee.

NATURAL WOOD CLADDING

For a natural timber finish, we offer Thermowood and Western Red Cedar cladding.

Both provide excellent durability and longevity comparable to our composite systems, with the understanding that natural timber requires occasional cosmetic maintenance over time.

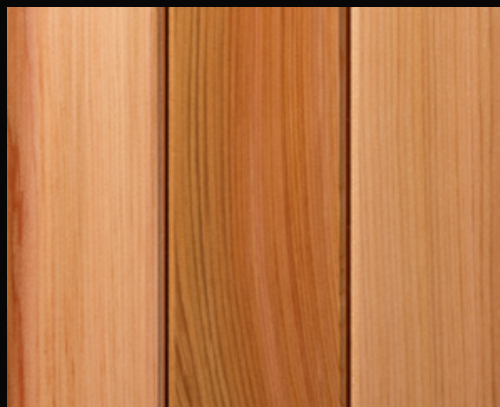

Thermowood is a thermally modified timber, often derived from softwood, that offers enhanced stability, pronounced grain, and lower maintenance requirements. It is also significantly more cost-effective than cedar, making it a popular choice where value and performance are key.

Western Red Cedar is a premium hardwood cladding with finer grain and warm tones. It will weather naturally unless treated and carries a higher upfront cost.

Both options deliver a timeless, natural finish suitable for contemporary and traditional designs alike.

Thermowood

Western Red Cedar

Millboard®

ENVELLO SHADOW

A premium cladding board with a refined, contemporary aesthetic. Envello Shadow Line+ is designed to replicate the crisp, elegant look of painted timber, with perfectly defined shadow gaps that create a clean architectural finish.

Hand-moulded from real oak, each board offers authentic grain detail while delivering exceptional long-term performance. The material is completely non-absorbent, highly resistant to fading, warping and rot, and engineered to maintain its colour and texture for decades with virtually no maintenance.

Available in: Salt Blue, Burnt Cedar, Salt Blue, Sage Green, Golden Oak, Limed Oak, Antique Oak.

Millboard®

ENVELLO BOARD

A luxury cladding board designed to bring timeless character to the exterior. Each piece is hand-moulded from real timber, capturing the rich detail, grain and warmth of natural oak with striking authenticity.

The alternating board widths add depth and rhythm, creating a traditional batten-style aesthetic that complements both period and contemporary homes. Engineered for outstanding longevity, these boards are resistant to moisture, rot and fading, ensuring a premium finish for many years.

Available Colours: Burnt Oak, Anthracite, Antique Oak., Golden Oak, Limed Oak, Smoked Oak

Gladco

PRO CLAD WOODGRAIN

A high-definition woodgrain board with a multi-tonal, realistic surface finish. The advanced capped layer offers enhanced UV and stain resistance, making it an excellent choice for customers who want a natural look with superior performance.

Available in a curated range of natural colours, ProClad provides a warm, authentic timber appearance with reliable long-term durability.

Available Colours: Onyx, Sandstone, Pewter, Quartz, Platinum, Burnt Oak

Walnut Slatted Composite

A modern outdoor living space featuring a dark grey pergola with a slatted roof. Under the pergola is an outdoor kitchen with a stainless steel grill, a range hood, and a pizza oven. There is also a seating area with light blue armchairs and a coffee table. Large glass doors lead into a house with a similar dark grey exterior. A hot tub is visible in the background. The scene is set in a backyard with a lawn and trees.

DECKING OPTIONS

Gladco

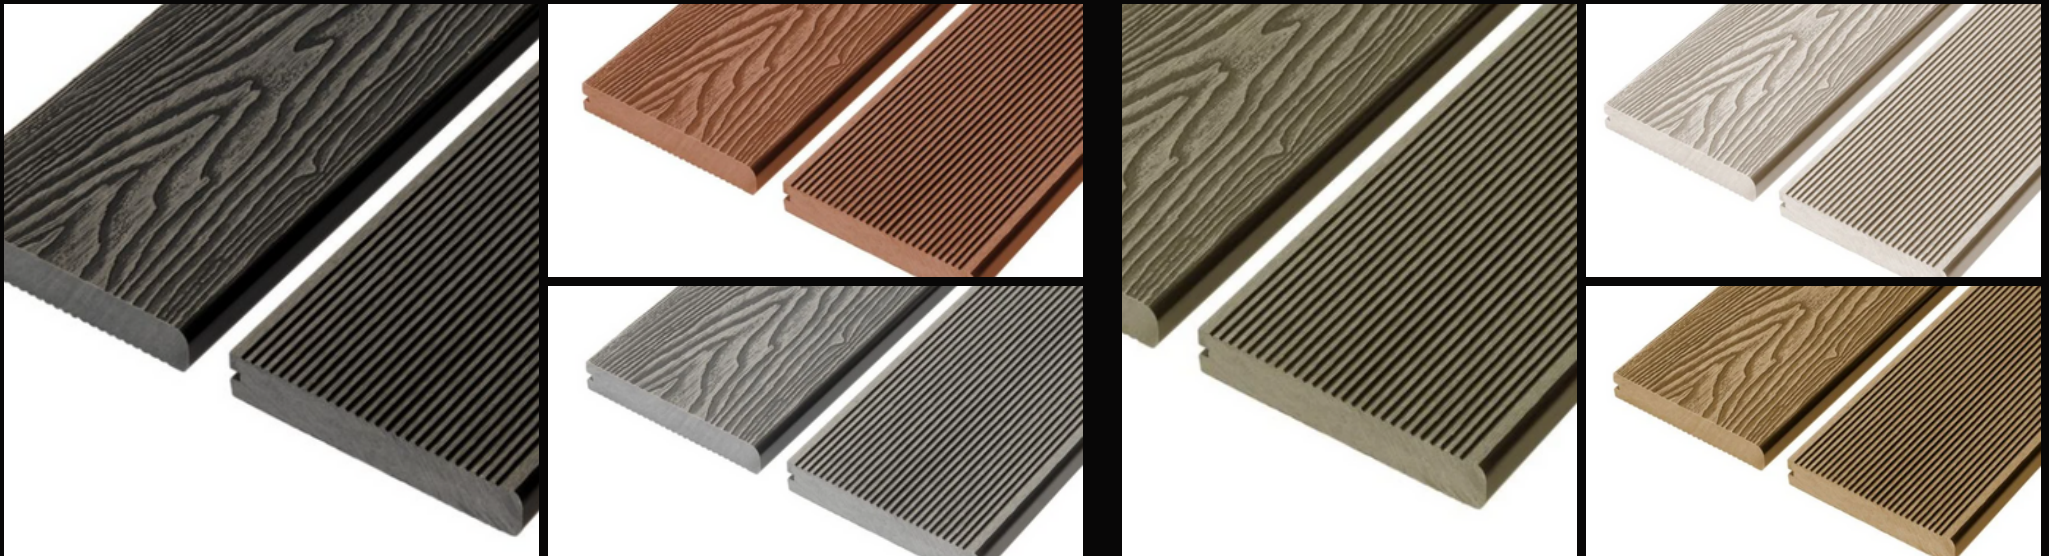

WOOD EFFECT & SMOOTH GROOVED COMPOSITE DECKING BOARD

A realistic timber-effect composite decking board that delivers the natural look of wood without the ongoing maintenance. Designed with a dual-sided, reversible profile, each board offers a choice of subtle grooves or a detailed woodgrain finish.

Durable, weather-resistant, and made from recycled materials, it requires no staining or painting, providing a long-lasting, low-maintenance solution.

Available Colours: Charcoal, Redwood, Grey, Olive Green, Ivory, Teak.

Gladco

PRO DECK COMPOSITE

A premium composite decking board offering enhanced stain and fade resistance for long-term colour stability.

Featuring a dual-sided profile with a detailed woodgrain finish on one side and narrow grooves on the reverse for improved slip resistance, this option combines durability, safety, and refined aesthetics—ideal for high-use outdoor spaces.

Available Colours: Burnt Oak, Sandstone, Pewter, Quartz, Platinum & Rosewood

Millboard®

ENHANCED WOODGRAIN

One of our most popular premium upgrades, this decking option sits at the very top end of composite performance and appearance. Expertly moulded from real oak timbers, each board captures the natural variation, grain depth, and organic patina of traditional wood—without containing any timber.

The result is a slip-resistant, wood-free board that will not rot, warp, or deteriorate over time, offering exceptional longevity and visual realism.

Available Colours: Antique Oak, Burnt Cedar, Brushed Basalt, Coppered Oak, Golden Oak, Limed Oak.
